

PARTICIPATION OF NETWORKS

in European Health Data Space
and the TEDHAS joint action

Dr. Zoltan Lantos Ph.D.

Head of Department of Virtual Health Guide Methodology,
Semmelweis University Budapest
NCPeH manager, National Directorate General for Hospitals

Health systems in digital transition
Towards a European Health Data Space
the V4 perspective
Seminar at the Permanent Representation of Hungary, 23 November 2021

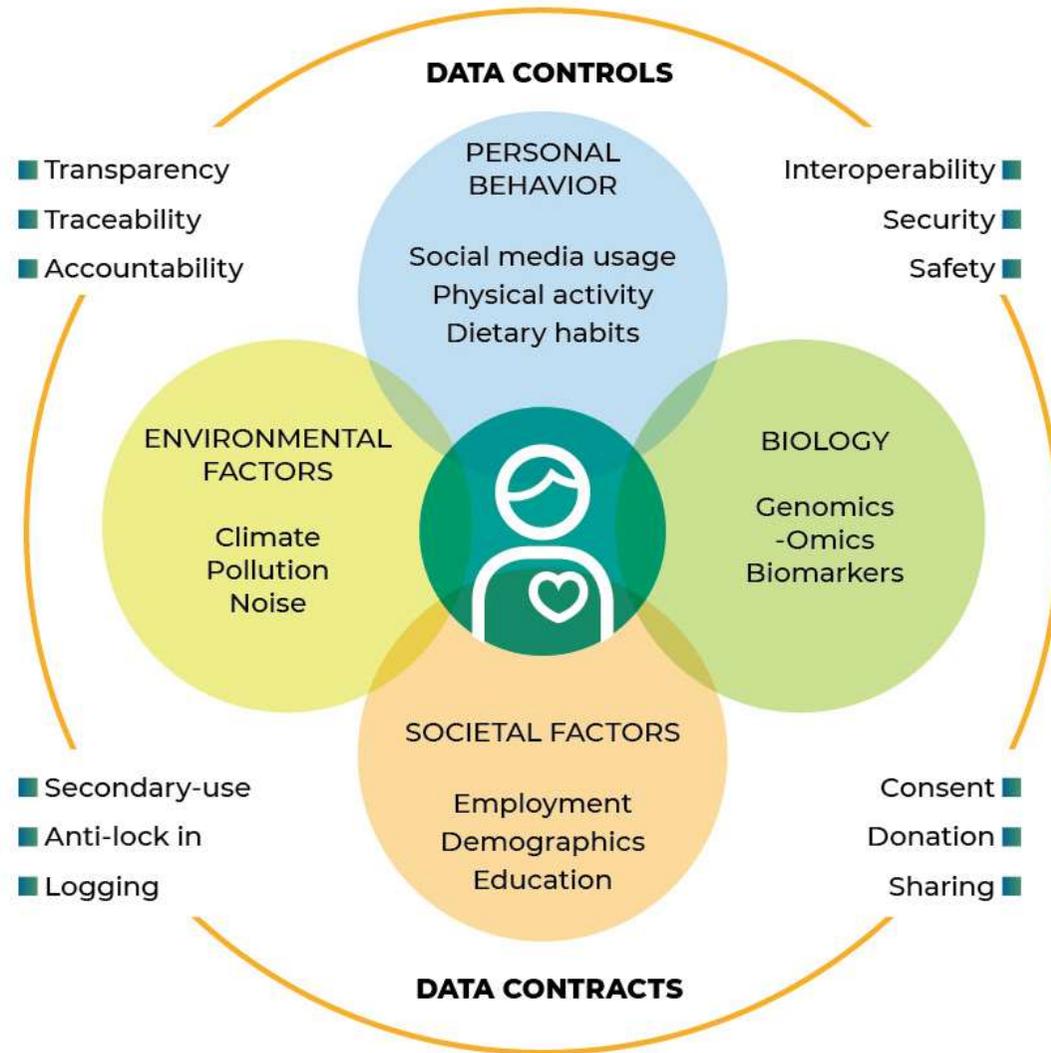

MEET MY DIGITAL TWIN

The image illustrates a man's face being replaced by a pixelated digital twin. The digital twin is surrounded by various data visualization elements:

- A blue waveform graph.
- A brain scan image.
- A large data table with multiple columns and rows.
- A dashboard with a red heart icon, a bar chart, and a pie chart.
- A green icon representing a person, a bicycle, and a heart.
- A bar chart with red and green bars.
- A grid of colored dots (yellow, green, blue).
- A satellite-style map of a city with green and yellow areas.
- A network diagram with red lines on a light background.
- A colorful heatmap or data matrix.
- A red ECG line at the bottom.

FOOTPRINT OF 750 MILLION DIGITAL TWINS

eHACTION JADECARE
PHIRI

EUROPEAN HEALTH DATA SPACE – SECONDARY USE EHDS2

Sharing data for health
Operational framework and governance models
FAIR – Findable, Accessible, Interoperable and Reusable
Citizen empowerment
Common good

Outreach, Engagement, Sustainability
Dialogue with national health authorities, international stakeholders

Towards European Health DAta Space

Excellence in data quality
Auditing data holders
Transparent data processing
Meta data catalogues
Connecting the dots
Data Nodes
Federated databases
Synthetic datasets
Computation Hubs
Trusted Research Environment
Algorithm-to-Data
Data intermediation organizations

Human vision

aspects of data perception, data sharing, data portability, data altruism, ethics
